

Declaration of compliance

MINIGRIP® - COLOR

We confirm that the above mentioned product fulfills the requirements on materials and articles used for food contact as described in the European Regulation 10/2011/EC. The master batch is furthermore in compliance with European Resolution Res AP (89) 1.

Substances used for the manufacturing of this product are all listed in Annex I of Regulation 10/2011/EC. The following substances are restricted by SML values:

Ref no. 68320, cas no. 2082-79-3, SML = 6 mg/kg

Ref no. 46880, cas no. 65140-91-2, SML = 6 mg/kg

Substances also authorized as direct food additives (dual use additives) are not used for the manufacturing of this product. The product does not contain a functional barrier as defined in Regulation 10/2011/EC. Overall migration tests have been conducted according to the specifications set out in EC-directives 85/752/EC as amended and 82/711/EC as amended. The product can be used for long time storage at maximum 40 °C for all kinds of foodstuffs.

The printing ink used for this product follows the recommendations of the various trade association bodies regarding printing inks for food wrappers and packaging, as published in their guidance documents (the British Coatings Federation's "Yellow Booklet" *Printing inks for use on food wrappers and packages*, the German Printing Inks Industry Association's Information Leaflet *Printing inks for food packaging*, and the Scandinavian Paint and Printing Ink Research Institute's document *Printing Inks for Food Wrappers*).

The item does not apply any danger to health or environment according to article 3 in Framework Regulation 1935/2004/EC. The item is manufactured according to Regulation 2023/2006/EC on good manufacturing practice. The item complies with current EU-legislation on plastic materials and articles intended for food contact as described in EC Regulation 10/2011/EC.
