

Declaration of conformity

Directive 94/62/EC modified - Standard EN 13427: 2000

Articles R543-44 and R543-45 from French « Code de l'Environnement »

Article:

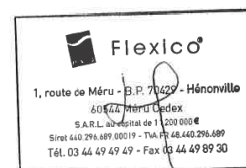

Minigrip Bags

Principal materials:

Polyethylene

Standard / Report	Assessment requirement	Claim	Note
1.1 Prevention by source reduction	Ensure only minimum adequate amount of material in the packaging system (EN 13428:2000)	Yes	
1.2 Heavy metals	a. Ensure below maximum permitted levels for components (CR 13695-1:2000)	Yes	Total amount of lead, cadmium, mercury and hexavalent chromium < 100 ppm
1.3 Others noxious / hazardous substances	b. Ensure in compliance with (EN 13428:2000)	Yes	
2 Reuse	Ensure reusability in all terms of the standard for the functional packaging unit (EN 13429)	No	
3.1 Recovery by material recycling	Ensure recyclability in all terms of the standard for the functional packaging unit (EN 13430:2000)	No	
3.2 Recovery in the form of energy	Ensure that calorific gain is achievable for the functional packaging unit (EN 13431:2000)	Yes	
3.3 Recovery by composting	Ensure compostability in all terms of the standard for the functional packaging unit (EN 13432:2000)	No	

NOTE: *Conformity with EN 13427 requires affirmative responses to sections 1.1, 1.2, 1.3 and to at least one of the sections 3.1, 3.2, 3.3. In addition, where a claim of reuse is made section 2 should also record an affirmative response*
